Three Main Points

by Bob Avakian,
Chairman of the RCP, USA

What do we in the Revolutionary Communist Party want people to learn from all that is exposed and revealed in this newspaper? Mainly, three things:

1 The whole system we now live under is based on exploitation—here and all over the world. It is completely worthless and no basic change for the better can come about until this system is overthrown.

2 Many different groups will protest and rebel against things this system does, and these protests and rebellions should be supported and strengthened. Yet it is only those with nothing to lose but their chains who can be the backbone of a struggle to actually overthrow this system and create a new system that

Prepare the ground, prepare the people, and prepare the vanguard—get ready for the time when millions can be led to go for revolution, all-out, with a real chance to win.

What Is Communist Revolution?

It is this system that has got us in the situation we're in today, and keeps us there. And it is through revolution to get rid of this system that we ourselves can bring a much better system into being. The ultimate goal of this revolution is communism: A world where people work and struggle together for the common good...Where everyone contributes whatever they can to society and gets back what they need to live a life worthy of human beings...Where there are no more divisions among people in which some rule over and oppress others, robbing them not only of the means to a decent life but also of knowledge and a means for really understanding, and acting to change, the world.

This revolution is both necessary and possible.

3 Such a revolutionary struggle is possible. There is a political Party that can lead such a struggle, a political Party that speaks and acts for those with nothing to lose but their chains: The Revolutionary Communist Party, USA.

This Party has the vision, the program, the leadership, and the organizational principles to unite those who must be united and enable them to do what must be done. There is a challenge for all those who would like to see such a revolution, those with a burning desire to see a drastic change

Who Is Bob Avakian, Chairman of the Revolutionary Communist Party?

In Bob Avakian, the Chairman of our Party, we have the kind of rare and precious leader who does not come along very often. A leader who has given his heart, and all his knowledge, skills and abilities to serving the cause of revolution and the emancipation of humanity. Bob Avakian came alive as a revolutionary in the 1960s—taking part in the great movements of those days, and especially working and struggling closely with the most advanced revolutionary force in the U.S. at that time, the Black Panther Party. Since then, and while many others have given up, Bob Avakian has worked and struggled tirelessly to find the way to go forward, having learned crucial lessons and built lasting organization that could continue the struggle, and aim to take it higher, while uniting with the same struggle throughout the world. He has kept on developing the theory and strategy for making revolution. He played the key role in founding our Party in 1975, and since then he has continued the battle to keep the Party on the revolutionary road, to carry out work with a strong revolutionary orientation. He has deeply studied the experience of revolution—the shortcomings as well as the great achievements—and many different fields of human endeavor, through history and throughout the world—and he has brought the science and method of revolution to a whole new level, so that we can not only fight but really fight to win. Bob Avakian has developed the scientific theory and strategic orientation for how to actually make the kind of revolution we need, and he is leading our Party as an advanced force of this revolution. He is a great champion and a great resource for people here, and indeed people all over the world. The possibility for revolution, right here, and for the advance of the revolution everywhere, is greatly heightened because of Bob Avakian and the

backbone of a struggle to actually overthrow this system and create a new system that will put an end to exploitation and help pave the way to a whole new world.

The spirit of Rise Up must go forward – and that spirit needs to be made manifest in STRUGGLE and ORGANIZATION.

Be out there on November 22, the anniversary of Tamir Rice's murder.

Be out there November 27, to actively boycott Black Friday.

Be out there December 3, one year after the cops who murdered Eric Garner were exonerated.

Be out there, making a powerful force of the voices of the relatives of those murdered by police.

Be out there, carrying forward the struggle to shut down Riker's Island.

And be there this next month, at organizing meetings of Rise Up.

This is a shout-out to the resisters coming to October 24

To the loved ones of those who've been murdered by police...

To the youths and students...

To the clergy and laypeople, the artists and the writers...

To the Black and Brown and Native people who refuse to bow down to centuries-old and modern-day discrimination and oppression...

To the immigrants, hounded wherever they go...

To the women and men, LGBT and straight...

To those who catch the brunt of this terror and those in the middle whose conscience cries out...

To the people who've been waging this struggle for years and the people just coming into it, and those battlers for justice on all the other fronts of society who will be in the streets on the 24th...

This is a shout-out to those who see the need to draw the line, to resist the powers that be, and to shake up the people who go along, to put out the challenge for the whole world to see and hear: WHICH SIDE ARE YOU ON?

*Rise Up October makes it plain: POLICE MURDER AND TERROR MUST **STOP**. Rise Up October means challenge and struggle. Rise Up October means determination not just to reform all this but to STOP it... to dare to call out and reverse a slow-motion genocide... to live a morality of justice and emancipation as we do... and to get ORGANIZED to make all that real...*

Our Party and its leader, Bob Avakian, are determined to stand with Rise Up October... to fight with all our might to reverse this genocidal insanity... and to do all this as part of bringing into being a whole new world where such madness really IS no more and where all the other ways in which the seven billion human beings on this planet are exploited, oppressed, degraded, diminished, and denied their humanity and their futures are overcome forever. We do this as part of preparing minds and organizing forces to hasten the advent of REVOLUTION, which is the only way that humanity can achieve its emancipation and truly bury its chains.

We will stand with you in struggle on these days. We salute your courage, your perseverance, and keeping your eyes on the prize.

And we invite you—we challenge you—to get seriously into the revolution... to get into and dig into the work of Bob Avakian, to watch his videos and read his writings...

When you put those things alongside each other, which one has any meaning, which one really contributes to anything worthwhile? Your life is going to be about something—or it's going to be about nothing. And there is nothing greater your life can be about than contributing whatever you can to the revolutionary transformation of society and the world, to put an end to all systems and relations of oppression and exploitation and all the unnecessary suffering and destruction that goes along with them. I have learned that more and more deeply through all the twists and turns and even the great setbacks, as well as the great achievements, of the communist revolution so far, in what are really still its early stages historically.

Voices On The Cold Reality of Murder

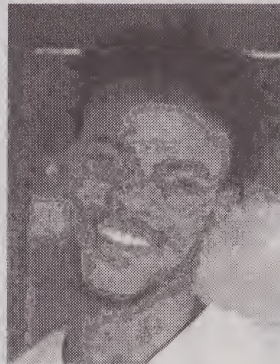

On these pages is a small sampling of important and powerful statements from families of some of the thousands killed by police, and voices of conscience, who have joined the movement to STOP police terror and murder and others who have been part of Rise Up October. Excerpt of statement from Syreeta Myers, mother of VonDerrit Myers Jr.:

Unfortunately I was forced into this club no parent wants to be a part of. My one and only child, VonDerrit Myers Jr. was executed by an off duty cop October 8, 2014. The media attacked my son's character and demonized him.

Here is what you don't know about VonDerrit. He was loved. He was a student. He loved basketball and the latest fashion. He was intelligent and an intellectual. He had big dreams.

When VonDerrit was killed he was not committing a crime. He just left out of a store after buying a sandwich. Jason Flannery did not have the right to pursue anyone that was not engaged in a felony act. There was no forensic evidence or one eye witness that put a gun in VonDerrit's hand. I want to see what side people are on. Aiyana, seven-years-old, asleep—they came in and automatically blew my granddaughter's brains out in front of me. Like I said, I seen the light of life leave out of Aiyana's eyes. I never seen anything like this in my life. I don't care how ghetto they say I am, how hood they say I am. I've never seen nothing like that in my life and I hope to never see it again. And I shouldn't have had to see it on my seven-year-old sleeping. I traveled all the way from Detroit, Michigan to ask everybody: which side are you on?

Excerpt of statement from Precious Edwards, sister of Dakota Bright:

Dakota Bright, 15, murdered by Chicago police, 11/8/12

Hi my name is Precious Edwards and I am the older sister to now 18-year-old Dakota Bright. My brother, then 15 years old, was hounded down and brutally murdered by Chicago police November 8, 2012. He was chased through a dark alley where he was brought to his death by one fatal shot to the back of the head at point blank range. Police harassed and tried intimidating our family starting the day he was murdered, followed by his funeral being invaded and guns being drawn on the family at the burial. They went so far as to telling my mother they would kill her with a rifle pointed in her face. They've been issuing illegal tickets for everything under the sun to our family, friends, and even the community for seeking justice for the last three years. We've done nothing wrong our loved one was taken from us. All we ask is for answers, it's been three long years and we've got none.

Georgia Ferrell, mother of Jonathan Ferrell:

Danielle Willard, 21, killed by West Valley City, Utah, police, 11/2/12

Melissa Kennedy, mother of Danielle Willard:

My daughter Danielle Willard was shot and killed by Shaun Cowley and Kevin Salmon, both ex-detectives in Utah... The man that shot her was charged with manslaughter. At the preliminary hearing the Judge (that was retiring in 3 weeks) dropped the charges.

This is happening much too often and it needs to stop.

The people that have given cops "implied immunity" need to take it away from them.

I'm tired of seeing people being killed. I am tired of everyone looking the other way and letting these guys find a job at another office. The worst that has happened is these guys get fired or they are asked to retire. Most of these cops are still carrying a badge and a gun!

This has to stop. I don't want Danielle Willard to be just another kid shot by a cop. I want her name to live on. I want to make it so that she will be one of the reasons why changes are made. Danielle Willard's name will never just go away, no matter how hard other people try to make that happen. Her name will live on forever.

I want to let the nation know what's going on. We need a new future. People in authority don't stand up and speak for the people. No one in authority has stood up and said innocent people are being killed. Jonathan was seeking help! The President says nothing. When Freddie Gray is killed by police and young people stand up the President says the kids are thugs. I'm a Christian and a parent. If Jonathan was doing anything wrong I'd say so. He needs help and the police fire their guns. This must be stopped. I'm flying to NYC for Rise Up October. I've put the word out for funds. And I am using my own money. I am very excited about Rise Up October. We need to do this!"

We must continue the struggle to STOP Police Terror and Murder! WHICH SIDE ARE YOU ON? See page 14.

Lanna Covarrubias, sister of Daniel Covarrubias

Native Americans are killed at the highest rate because we're the smallest population, but no matter what race you are, nobody deserves to be murdered. We all deserve due process. My brother was a descendant of Chief Seattle. I say that not because his life is any more valuable than any of the other victims, but because it's a reminder this genocide is still happening and the modern day lynchings continue to happen today. It's just hidden behind the justice system as legal discrimination.

I struggle because I stay awake at night thinking how can I get through to people, how I can get through to let them see what's happening in our community. I didn't realize the numbers were so high. I had went out in 2012 to protest for John T. Williams. and I was out on the frontline, me and my friends we saw an injustice in our community and we went out and fought against it. And I thought, I had done my job, I thought "well, you know, I protested, I'm done." And now I see there's so much more I could have done. (At this point someone yelled out "you're doing it now.")

From Airickca Gordon-Taylor, cousin of Emmett Till:

Emmett Till, 14, lynched by white racists, Mississippi, 1955

If police officers are going to hide behind badges the same as men hid underneath white hoods during the days of Jim Crow when my cousin Emmett Till was murdered for a mere whistle and kill our sons and daughters then we must rise up together as our people did after Emmett Till's murder with the eruption of the Civil Rights Movement in 1955. Meet me in New York for #RiseUpOctober!

From a Princeton Univ. Student

In a democratic country that promises equality and justice for all, these promises fall short when current events, historical trajectories, and oppressive hegemonic foundations, kill disempowered people every day. The genocide ongoing in this country at the hands of racialized police brutality is one of many articulations of white supremacy, amongst other oppressive ideologies, prevalent in this country. There is no equality when Black and Brown people are being murdered in disproportionate numbers. There is no justice when the law stands behind murderers constantly ruling "no indictment" on police officers whose racist motives in their murders are clear.

What does the denial of a trial, A TRIAL, mean to the victims and their families? This denial is dehumanizing and adding to the second-class citizenship people of color experience in the United States. The ongoing murders, the denial of trials, and the state sponsored violence continue to devalue and dehumanize people of color, especially Black, Brown, and Native Americans.

Bernard Lown, M.D. (winner 1985 Nobel Prize for Peace)

Confronting the cancer of racism, silence is intolerable if we wish to remain human. Since the founding of our nation, this malignancy has been eating away at our pretensions of democracy. The reason for its persistence is not merely a cultural and social legacy of slavery. It relates to a system of governance that appropriates wealth to a few while ignoring the dire needs of the many who produce the wealth. As Dr. Martin Luther King, in his memorable speech at the Riverside Church in New York City nearly 40 years ago stated, "The time comes when silence is betrayal."

Jerome McCorry, Faith Coordinator of the Stop Mass Incarceration Network

Reverend McCorry has been traveling the country taking RiseUpOctober to people. He spoke in Cleveland after reports by two so-called "experts" to justify the murder of Tamir Rice were released. Here he speaks to "Black-on-Black" crime, a major

dant of Chief

Seattle. I say that not because his life is any more valuable than any of the other victims, but because it's a reminder this genocide is still happening and the modern day lynchings continue to happen today. It's just hidden behind the justice system as legal discrimination.

I had went out in 2012 to protest for John T. Williams. and I was out on the frontline, me and my friends we saw an injustice in our community and we went out and fought against it. And I thought, I had done my job, I thought "well, you know, I protested, I'm done." And now I see there's so much more I could have done. (At this point someone yelled out "you're doing it now.")

We are in a state of emergency in this country. Broken windows-type policing and mass incarceration and the police killings of Black and Brown people are terrorizing our communities. These injustices cannot continue. And so, we are all here tonight to stand together to say: NO MORE. THIS STOPS NOW.

From a Princeton Univ. Student

In a democratic country that promises equality and justice for all, these promises fall short when current events, historical trajectories, and oppressive hegemonic foundations, kill disempowered people every day. The genocide ongoing in this country at the hands of racialized police brutality is one of many articulations of white supremacy, amongst other oppressive ideologies, prevalent in this country. There is no equality when Black and Brown people are being murdered in disproportionate numbers. There is no justice when the law stands behind murderers constantly ruling "no indictment" on police officers whose racist motives in their murders are clear.

What does the denial of a trial, A TRIAL, mean to the victims and their families? This denial is dehumanizing and adding to the second-class citizenship people of color experience in the United States. The ongoing murders, the denial of trials, and the state sponsored violence continue to devalue and dehumanize people of color, especially Black, Brown, and Native Americans.

The world is watching the United States. I will march to demand justice and equality. I will march because promises of justice and equality have not been kept. I will march because my people are dying at the hands of racialized police brutality. I will march because if I don't I am part of the silent majority that is perpetuating the problem. I will march because choosing to remain silent is a form of symbolic violence in the midst of a genocide.

Bernard Lown, M.D. (winner 1985 Nobel Prize for Peace)

Confronting the cancer of racism, silence is intolerable if we wish to remain human. Since the founding of our nation, this malignancy has been eating away at our pretensions of democracy. The reason for its persistence is not merely a cultural and social legacy of slavery. It relates to a system of governance that appropriates wealth to a few while ignoring the dire needs of the many who produce the wealth. As Dr. Martin Luther King, in his memorable speech at the Riverside Church in New York City nearly 40 years ago stated, "The time comes when silence is betrayal."

Tamir Rice was a 12-year-old child, playing by himself on a playground with a toy gun on November 22, 2014 when someone called 911 to report a "juvenile" playing with a gun that was "*probably fake*." Cleveland, Ohio, police officer Timothy Loehmann and his partner rolled up on Tamir and *within two seconds* Loehmann shot Tamir and left him to die without rendering any medical aid.

On October 10, the Cleveland district attorney produced reports by two "experts" to justify the murder. In the words of one of them, the murder was justified because of "Officer Loehmann's belief that Rice posed a threat of serious physical harm or death."

If a cop can murder a 12-year-old Black child playing with a toy gun that a 911 caller said was "probably fake"—within two seconds of arriving on the scene—and the system can justify this by claiming this pig considered the child to be "a threat," then what is that but a green light for police to murder *anyone* as long as a cop claims the victim "posed a threat?"

This cannot go down! The pig who murdered Tamir Rice and his partner—who was complicit in the murder—must be indicted, convicted, and jailed!

Tamir Rice, 12, shot by Cleveland police for playing with a toy gun in a park. Police rolled up and shot Tamir within two seconds of arriving on the scene.

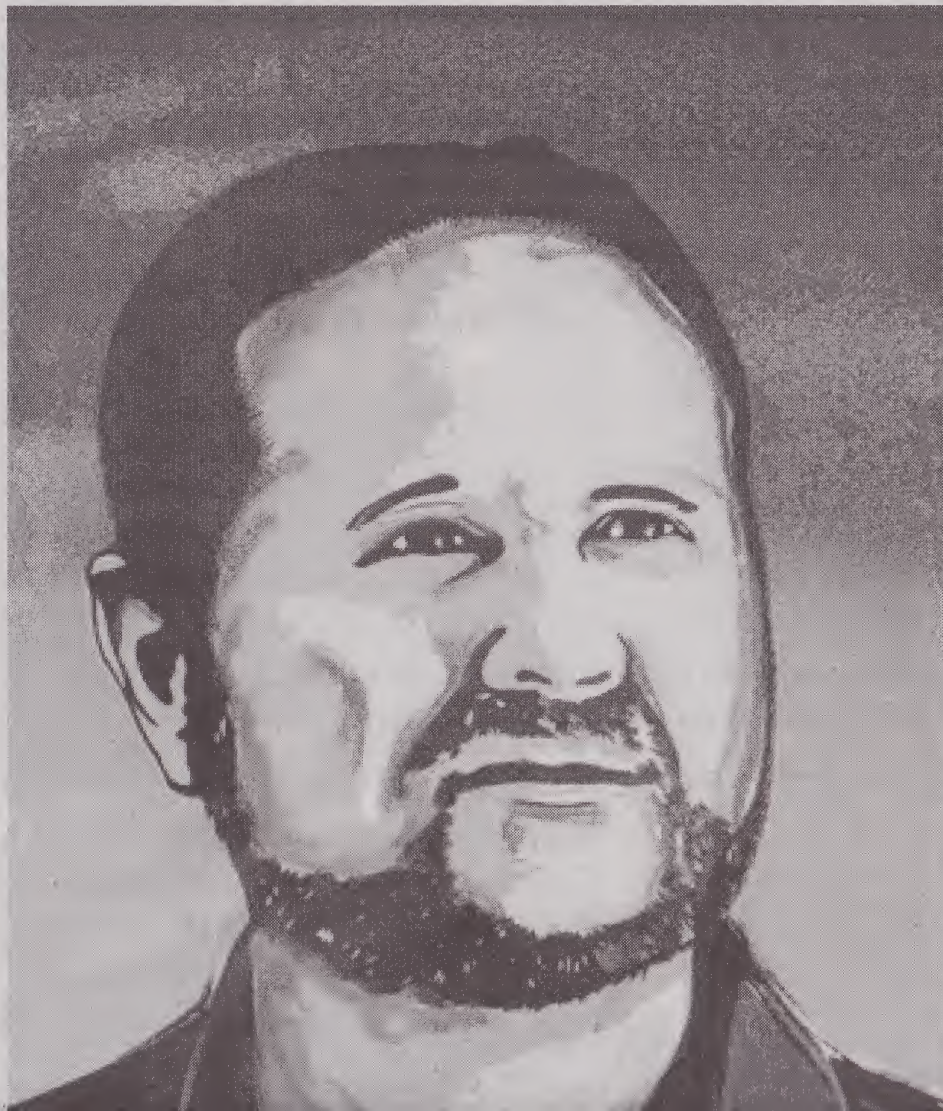

REALITY CHECK

Codifying Racism into the Law

Every time another pig uses "I feared for my life" as a justifiable legal excuse for the straight-up murder of unarmed Black or Latino people, this system is codifying racism into the law. They are saying that it's legally "justifiable" for an armed enforcer of this system to murder someone based on their racist, white supremacist ideas—ideas that are shaped by this racist, white supremacist system. Such a system is murderous and decrepit, it's totally fucking illegitimate and needs to be swept away!

This statement from Bob Avakian, first issued on New Year's Day, 2014, remains timely and profoundly relevant.

This is Bob Avakian, Chairman of the Revolutionary Communist Party, with a New Year's message—

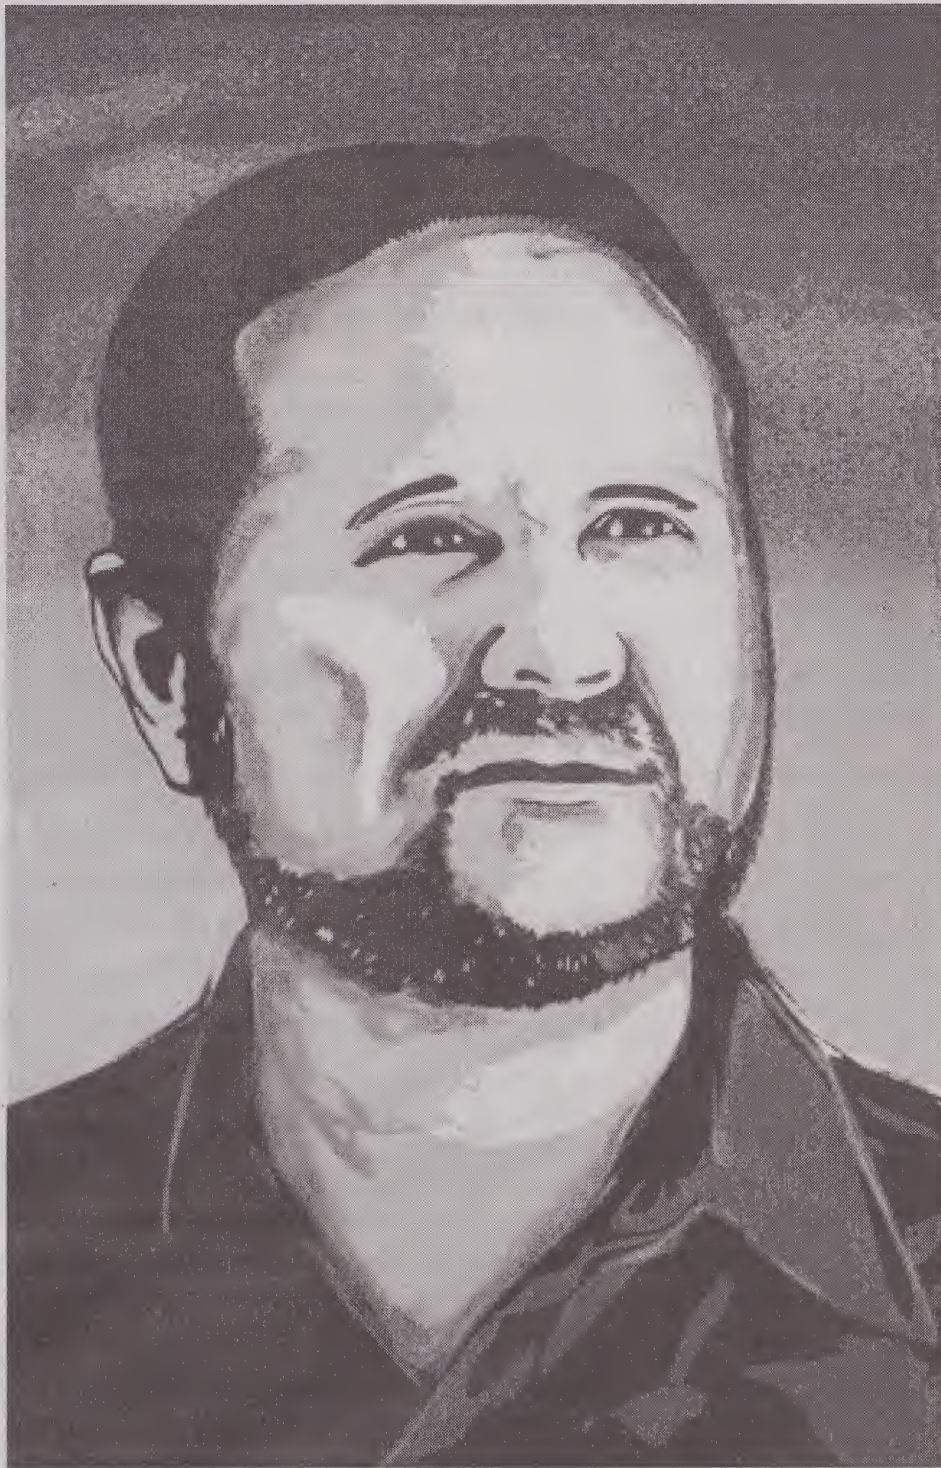

We need a new world, a radically different world.

Look at the world today. Destruction of the environment. Youth in the inner cities robbed of a future, “presumed guilty” for being Black or Brown, hounded and shot down by police, incarcerated in huge numbers. Women raped, battered and murdered, denied their basic humanity and their full potential as human beings. People scorned, bullied, brutalized for being gay, or just being “different.” Millions of children dying every year from starvation and disease. Immigrants driven from their homelands, forced into the shadows, exploited, deported, ripped away from their children. Slaughter and enslavement in the name of one god or another. Wars, torture, and massive government spying.

Things are this way because of the system that rules over us and declares its “special right” to rule the world. A system like this is a system that no one should put up with or go along with. It needs to be swept off the face of the earth. And it can be.

A lot of people say: “You can’t really change things. Nobody cares what we think. Those who have the power don’t give a damn about us.” Yeah, they don’t—but so what! Their power is illegitimate anyway—a law and order of injustice and exploitation, enforced with brutality, murder, high-tech assassination and devastation, here and worldwide. It needs to be overthrown.

And what we do matters a great deal. Our lives should be, and can be, about something with meaning and purpose that is really worth living for and fighting for. Why should we do what they want us to do—killing and crippling each other, trying to beat down or beat out each other, ending up in jail, or paralyzed, or dead at an early age—instead of joining together to go up against the system that has got us in this mess in the first place? Why should we accept the lies that people who are of a different color, or live in a different place, or speak a different language, or love in a different way,

Why should we go along with the sickening culture of this system which says money is more important than people, and people are only a means to make money? Why should we believe that “it’s all in god’s hands,” when all this horror and suffering is completely unnecessary and could be ended? Why should we accept the way things are, or just try to make things a little bit better, still living within this system that will keep on destroying the lives of human beings, and denying a decent future to the youth, all over the world?

I call on youth in the inner cities, men and women in prison, people struggling just to keep from going under, mocked by the lie that “you can make it if you try,” all those catching hell under this system, everyone deeply troubled by the desperate situation and dismal future facing so many youth—I call on students, academics, musicians and other artists, all those outraged by the crimes perpetrated by this system, everyone who agonizes over the state of the world and the future of humanity—to seriously get into this revolution. And it is a lot more realistic than trying to “fix” this system.

People say: “Revolution has been tried, and it didn’t work. It got smashed, or turned into something worse than what it was fighting against. Everybody has given up on revolution.” No. The process of revolution has gone through twists and turns, mistakes have been made, there have been setbacks and defeats—but the truth is that, in its short history so far, the communist revolution has accomplished great things on a road of liberation never before taken. This revolution remains the only road

And everybody has not given up on revolution. On my part, I have not just refused to give up, but have recognized the need to make new breakthroughs for this revolution. I have gone to work to learn from the experience of revolution, and from experience more broadly, and this has led to a new synthesis of communism—a deeper, even more scientific understanding of the methods, the goals, the strategy and

This is communism, the goal of our revolution, a future—for the youth, for all of humanity—that is truly worth dedicating our lives to.

This is Bob Avakian, with a message of revolution. The challenge is there. The leadership is there. What’s needed...is you.

No more generations of our youth, here and all around the world, whose life is over, whose fate has been sealed, who have been condemned to an early death or a life of misery and brutality, whom the system has destined for oppression and oblivion even before they are born. I say no more of that.

Drones, Lynch Mobs and Occupation... More Outrages and Crimes from the Self-Proclaimed Global Champion of Human Rights

by Alan Goodman

The rulers of the United States and their media constantly brand themselves as bringing democracy and human rights to the world. Three outrages in the past week shine a light on the REAL nature of what the U.S. brings to the world: mass murder by drones, a devastating occupation of Afghanistan, and backing their ally Israel in a reign of terror against Palestinians.

Mass Murder and Terror by Drone in Yemen and Pakistan

This week, an important series of exposés in *The Intercept*—based on documents leaked by a whistleblower—revealed that as many as 90 percent of those killed by U.S. drone strikes *are not even the intended targets*.

Barack Obama claims the use of drones by the CIA and the U.S. military in places like Pakistan and Yemen is “heavily constrained” and targets only “high-value al Qaeda targets” or “forces that are massing to support attacks on coalition forces.” In reality, U.S. drone strikes are *raining massive and indiscriminate terror* on the people of Yemen and Pakistan.

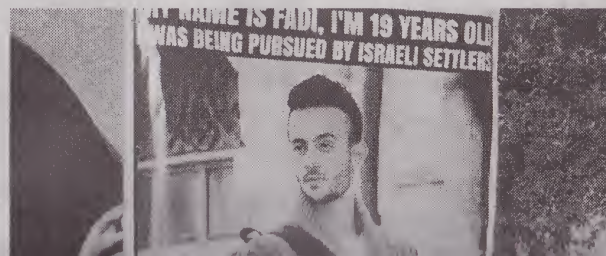

The official criteria for drone assassinations authorize murder completely outside anything resembling a judicial process. For example, not only did the CIA illegally assassinate U.S. citizen Anwar al-Awlaki, *a separate CIA drone attack a week later assassinated his son—who was never accused of anything and had not been in contact with his father for two years*. A spokesman for Obama justified the murder by saying al-Awlaki’s son should have had “a far more

Extending the U.S. Occupation of Afghanistan

On October 15, Barack Obama announced 10,000 U.S. troops will remain in Afghanistan until and beyond when he leaves office. The U.S. invasion of Afghanistan in 2001 led to the deaths of hundreds of thousands of civilians, combatants, and people who died as a result of battered infrastructure and poor health conditions, loss of food supply, and economic devastation.

Amnesty International investigated nearly a dozen instances of mass killings by the U.S. and its allies in Afghanistan between 2009 and 2013. The crimes include murdering people in a SWAT-style raid on a birth celebration—including two pregnant women who tried to protect other guests, and the massacre of up to 140 people gathering fuel from an abandoned oil tanker by U.S. bombers. Amnesty reported, “None of the cases that we looked into—involving more than 140 civilian deaths—were prosecuted by the U.S. military,” and “Evidence of possible war crimes and unlawful killings has seemingly been ignored.”

Obama justifies keeping U.S. troops in Afghanistan because “The bottom line is, in key areas of the country, the security situation is still very fragile, and in some places there is risk of deterioration.”

But nobody is supposed to ask: How did we get here?

In 2001, powerful sections of the U.S. ruling class saw the 9/11 attacks as a moment they could, and had to, seize to knock down and subordinate Islamic fundamentalist forces, and

But not only do official criteria allow the U.S. to kill anyone without judicial review, the majority of those killed are *not the intended victims*. Lynch Mobs and Massacres in Israel

Thirty-seven Palestinians have been killed in October, and hundreds more have been seriously injured by Israeli forces firing live ammunition at demonstrators and carrying out on-the-street extrajudicial executions of Palestinians suspected in being involved in knife attacks that killed seven Israelis this month.

And Israeli authorities and media have whipped up a lynch mob atmosphere where

That "special relationship" is one of shared "values" of genocide and oppression, and a partnership where Israel has consistently served as a relatively stable and reliable hitman for the U.S. in the region and around the world.

As Israeli mobs and police were terrorizing and killing Palestinians, the new chairman of the U.S. Joint Chiefs of Staff went to Israel to meet the commander-in-chief of the Israel Defense Forces and others. A U.S. military spokesman said the visit was to reaffirm America's commitment to Israel.

The absence of mass, determined protest within this country against the U.S. occupation of Afghanistan—and other U.S. crimes in central Asia, North Africa, and the Middle East—feeds a vicious cycle where Jihadists claim the crimes of the U.S. government represent the people of this country. That has to change. It is essential that the people of the world see much more protest—involving all sections of people in this country—against the crimes of "our" government around the world.

Carl Dix Speaks on #RiseUpOctober: It HAS to Happen

This is an excerpt from a talk by Carl Dix, representative of the Revolutionary Communist Party and co-initiator of the Stop Mass Incarceration Network, at the August 27 gathering of hundreds at the First Corinthian Baptist Church in Harlem, New York City to take up Rise Up October.

So what **MUST** we do to stop all this? I'm gonna talk tonight about the only **REAL** way to put an end to this, and then I'm going to talk about Rise Up October, the huge National March to Stop Police Terror on October 24 here in New York City, which is something that everyone can and must jump into right now to push these killers back. And to start all this, I'm going to share with you a quote from Bob Avakian, the leader of the Revolutionary Communist Party. Here's what BA says:

There is the potential for something of unprecedented beauty to arise out of unspeakable ugliness: Black people playing a crucial role in putting an end, at long last, to this system which has, for so long, not just exploited but dehumanized, terrorized and tormented them in a thousand ways—putting an end to this in the only way it can be done—by fighting to emancipate humanity, to put an end to the long night in which

they try to break people's spirits and turn them into mindless killing machines for their imperialist wars. When they told me in 1970 that I had to ship out to Vietnam, I said "HELL, No!" I did two years in Leavenworth military prison because I refused to kill my Vietnamese brothers and sisters for this system. And now they're even putting all of human life in danger by destroying the environment of the planet we all live on.

We can't turn away from this ugliness. We have to confront it.

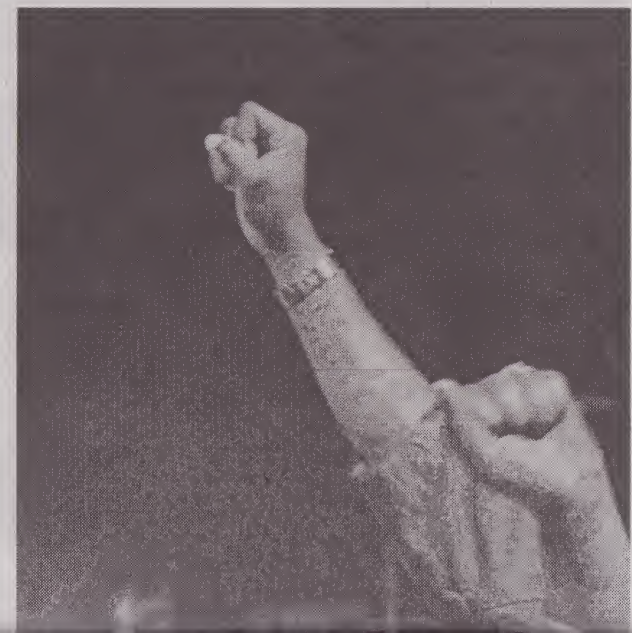

But there's something else. There's the great beauty that Avakian talks about. The potential to emancipate all of humanity.

This is not a dream. This is not "don't worry, we'll get justice some day." This can be done. Humanity **CAN** be emancipated. And the way to do this is through revolution—thru getting RID of this system and bringing in a system that is based on freeing people from all that ugliness and developing whole new ways for people to relate to each other and to the whole world.

A lotta people tell me, "Carl, you're crazy. You can't make revolution. They're too powerful." But what's crazy is going along with this system and expecting things to get better. And let me tell you about their power—I've seen it up close, and I've seen the very real potential to defeat that power.

We saw the potential to make revolution in the 1960's, when Black people stood up against the oppression enforced on them, sparking much broader resistance here in the U.S. and striking a chord with people around the world.

them tell you that we have to limit ourselves to working within the channels this system puts out there. We've seen this movie before, and the result is the whole genocidal situation we face right now—and yes, I said genocide. So I'm challenging everyone here, especially you young people—get into this revolution, get into Bob Avakian and what he's brought forward about how to make revolution—keep your sights aimed where they need to be: on emancipating all of humanity. You can do this by going to our website—revcom.us—or come to our new bookstore opening up this fall in Harlem at 437 Malcolm X Blvd at 132nd St. ... but do get into him.

That ugliness is so real, it is painful to even think about. There is the way they nearly wiped out the native peoples who lived here and stole their lands, and then put the few who survived into concentration camps called reservations. There is the way they dragged millions of Africans to these shores in slave chains. Oh yes, this capitalist system came into being dripping with blood from its every pore as Karl Marx said. There's the subjugation of women, which is ages old and current day with the culture of servitude and rape and viewing women

The potential to defeat them and their power was shown in Vietnam where peasants who were inspired and organized defeated their big powerful army—and part of how they did that by inspiring soldiers like me to rebel. Back then we wanted to question and change everything. We saw glimmers of a different morality, a whole different way people could relate to each other. We saw a glimpse back then of the beauty Bob Avakian is talking about.

In a few parts of the world people did get free, and here in the belly of the beast, the system got knocked back on its heels. But things didn't go far enough. We never made revolution here in the U.S., leaving power in the hands of the capitalist exploiters. Where revolution had been made, power was seized back. The attempt to change everything got defeated, and people around the world and in this country have paid a heavy price in blood and misery for this ever since. A lot of people got too beaten down and gave up. What we got was a few faces in high places—some Black, some

There's the way they do immigrants who are driven here by hunger and horror the U.S. causes in their homelands, desperately seeking work and then persecuted—deported in record numbers by Obama and insulted by fascist idiots like Donald Trump.

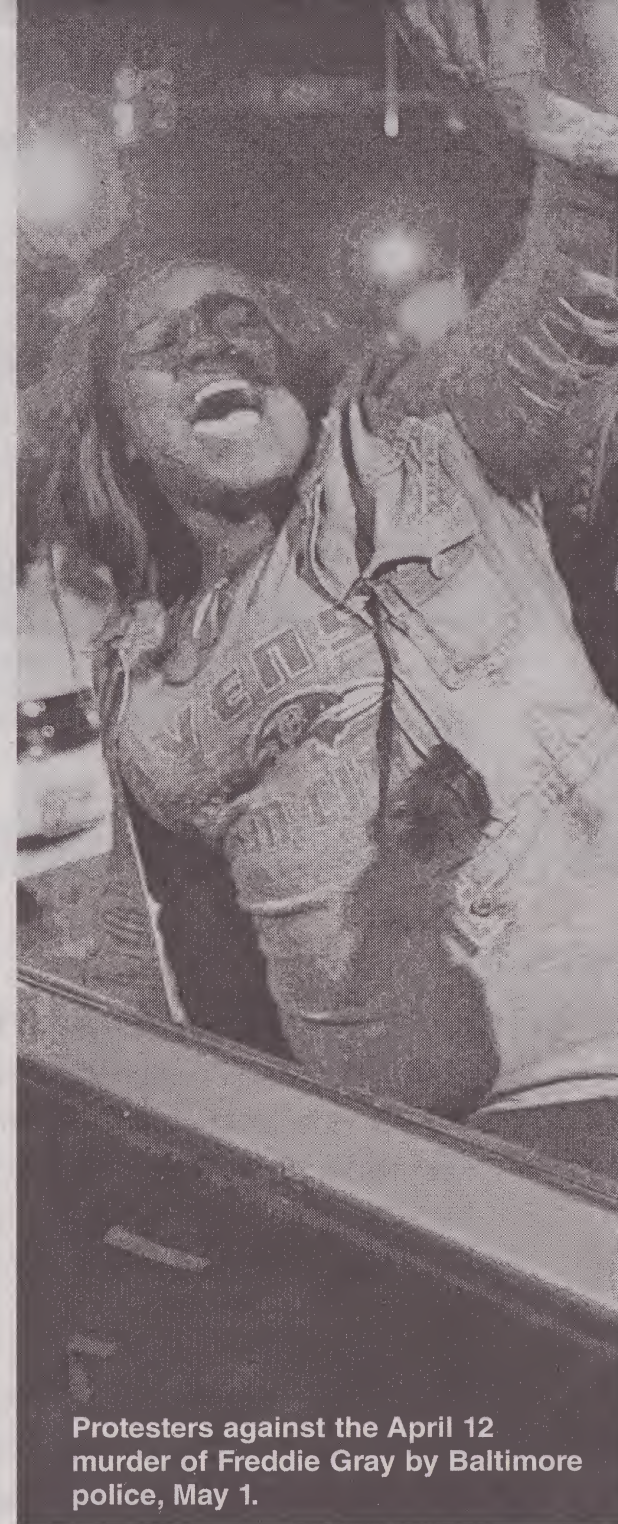

There's the imperialist wars—the powers that be sometimes tell us about the Americans who die in these wars, but do they tell us about the people they kill? They killed over a million people in Iraq these past two decades. They killed three million people in Vietnam and three million more in Korea. And do they tell you why? Well, Cornel can tell you—it's for EMPIRE. And I was in their army, I saw how

REALITY CHECK

What *REALLY* Changes Things?

Those who insist voting *can* bring change, but determined resistance and struggle *cannot*... have it backwards. Yes the powers that be wield their police, army, and media to enforce their rule, but they're in deep shit around the world and have conflicts within their own ranks—they can be challenged and defeated. A lesson from history: In 1964, a Democrat (Lyndon Johnson) won a landslide victory running for president as a "peace" candidate. He massively escalated the Vietnam War. In 1972, Republican Dick Nixon ran for president threatening to escalate the war further. He was forced to pull out U.S. troops and sign a "peace agreement" that led to the defeat of the U.S. in Vietnam. In *neither* case did how people voted in the elections determine what happened. The *actual* factors were a whole set of events in the world along with defeats the U.S. suffered in its wars for empire, and protest and rebellion in the homeland. A critical lesson for today: **Real change never comes through working through this system's elections, but determined struggle can be a game changer.**

You cannot break all the chains, except one. You cannot say you want to be free of exploitation and oppression, except you want to keep the oppression of women by men. You can't say you want to liberate humanity yet keep one half of the people enslaved to the other half. The oppression of women is completely bound up with the division of society into masters and slaves, exploiters and exploited, and the ending of all such conditions is impossible without the complete liberation of women. All this is why women have a tremendous role to play not only in making revolution but in making sure there is all-the-way revolution. The fury of women can and must be fully unleashed as a mighty force for proletarian revolution.

Cheers to an interfaith group of 15 ministers and rabbis who held a half-hour service to bless an abortion clinic in Cleveland, Ohio October 8, carrying signs reading “Pro-Faith, Pro-Family, Pro-Choice” and “Good women have abortions.” The gathering was held in response to “renewed attacks on reproductive health rights” and a vicious anti-abortion atmosphere promoted by “far too many religious people,” according to Rev. Harry Knox, president of the national Religious Coalition for Reproductive Choice. In a litany at the service, the Very Rev. Tracey Lind, Dean of Trinity Episcopal Cathedral, said, “Bless this building. May its walls stand strong against the onslaught of shame thrown at it. May it be a beacon of hope for those who need its services.”

Rev. Laura Young, a United Methodist minister and executive director of the Ohio Religious

Coalition for Reproductive Choice, said that Ohio is facing legislation that could “regulate abortion out of existence.” Seven of Ohio’s 16 abortion providers have closed or limited abortion since 2011, mak-

ing Ohio second only to Texas in clinic closures as a result of intensified restrictions on abortion. And the TRAP restrictions in Ohio are more severe than most. TRAP (“Targeted Regulation of Abortion

The Ohio law requires clinics to arrange transfer agreements with hospitals in order to offer abortion services, but forbids clinics from making agreements with large public teaching hospitals. At the same time, most private hospitals are Catholic affiliated and refuse to work with abortion providers.

Rev. Young told the *Columbus Dispatch*, “Women who have had abortions are being attacked at a religious level, and the faith community has a moral obligation to heal these spiritual wounds.... It is time for the progressive religious community to stop the silence and to believe out loud.” □

Stand Up for Abortion Rights! Counter-Protest the March for “Life”

Fetuses are NOT babies.

Abortion is NOT murder.

Women are NOT incubators.

Having a child can be a beautiful thing, if a person is ready for a child and wants to have a child. But, forcing a woman to have a child against her will is a form of enslavement. It traps women in abusive relationships, drives them into poverty, forces them to give up their dreams and forecloses their lives. Denying women the right to decide for themselves when and whether to bear a child is a keystone of the entire web of outrageous degradation, violence, rape,

January 22, 2016 in Washington, DC

January 23, 2016 in San Francisco

Fetuses are NOT babies.

Abortion is NOT murder.

Women are NOT incubators.

Abortion rights are in a state of emergency! Recent years have seen extreme and unprecedented restrictions on women's right to abortion. Clinics across the country have been forced to close through unjust laws and anti-abortion violence. Women and staff are shamed, harassed, and threatened on their way into the clinics that remain. Christian fascist politicians nearly shut down the entire government in order to cut funding to Planned Parenthood. Women are once again risking their lives to self-induce their own abortions. Eight doctors and clinic staff have been murdered by anti-abortion fanatics. And major Supreme Court cases are expected to soon determine the landscape of abortion rights for years to come.

The time is NOW to stand up for abortion on demand and without apology! The time is now to STOP the war on women.

Each year, tens of thousands of anti-abortion fanatics march against women's right to abortion and birth control on the anniversary of *Roe v. Wade*, the Supreme Court decision that legalized abortion. Be part of standing up in counter-protest, letting the world and the powers that be see and feel our demand that abortion be available to every woman who needs one without shame, restriction, or stigma.

Having a child can be a beautiful thing, if a person is ready for a child and wants to have a child. But, forcing a woman to have a child against her will is a form of enslavement. It traps women in abusive relationships, drives them into poverty, forces them to give up their dreams and forecloses their lives. Denying women the right to decide for themselves when and whether to bear a child is a keystone of the entire web of outrageous degradation, violence, rape, discrimination and oppression that women face in this society.

Women are not objects. Women are not things to be used for the sexual pleasure of men, nor are they breeders of children. WOMEN ARE FULL HUMAN BEINGS CAPABLE OF FULL EQUALITY IN EVERY REALM. Fighting to defend and expand women's right to abortion, birth control, and all-around reproductive freedom is a key and necessary part of the fight for the complete liberation of women.

Get organized. Mobilize yourself and others to be in DC and/or San Francisco for these counter-protests. Take this to your school, your religious congregation, your community group, your family and your friends. Spread the word far and wide. Donate and raise funds. Do not let the future belong to the woman-haters, be part of standing up and defeating the war on women.

An Invitation

Let's go on a crucial journey together—full of unity against oppression and lively struggle about the source of the problem and the solution.

Pursue your own convictions—that the outrages that move you are intolerable—to their logical conclusion, and be determined not to stop until those outrages have been eliminated. And if this, as well as learning about other outrages, and ideas about how this all fits together and flows from a common source—and how it could all be ended, and something much better brought into being—leads in the direction of seeing not only

And if this, as well as learning about other outrages, and ideas about how this all fits together and flows from a common source—and how it could all be ended, and something much better brought into being—leads in the direction of seeing not only the need for bold and determined resistance, but also the need for revolution and ultimately communism, then don't turn away from that because it moves you beyond your comfort zone, challenges what had been your cherished beliefs, or because of prejudices and slanders. Instead, actively seek to learn more about this revolution and its goal of communism and to determine

being—leads in the direction of seeing not only the need for bold and determined resistance, but also the need for revolution and ultimately communism, then don't turn away from that because it moves you beyond your comfort zone, challenges what had been your cherished beliefs, or because of prejudices and slanders. Instead, actively seek to learn more about this revolution and its goal of communism and to determine whether it is in fact the necessary, and possible, solution. And then act accordingly.

Bob Avakian
Chairman of the
Revolutionary Communist Party, USA

No more generations of our youth, here and all around the world, whose life is over, whose fate has been sealed, who have been condemned to an early death or a life of misery and brutality, whom the system has destined for oppression and oblivion even before they are born. I say no more of that.
